SOFTWARE ENGINEERING INTERN, WEBDEV TECHNOLOGIES LIMITED

Currently working as a Software Engineering Intern, contributing to software development, testing, debugging, and system maintenance while collaborating with development teams in an agile environment.

PROJECTS

STUDENT INFORMATION SYSTEM

Tech: Laravel, MySQL, Tailwind CSS.

Developed a web-based student information system for managing student records, results, and academic information with role-based access and responsive dashboards.

VENUE BOOKING SYSTEM

Tech: Laravel, Supabase, Tailwind-CSS, React.js

Contributed to the development of a venue booking and management system for handling reservations, scheduling, and venue availability for organizational operations.

DATABASE VISUALIZER

Tech: React.js, TypeScript, ContextUI

Built an open-source database visualization tool for simplifying database structure analysis and improving data relationship visualization through an interactive user interface.

CROP RECOMMENDATION SYSTEM (Open smartgrow)

Tech: HTML, CSS, JavaScript MySQL.

Developed a crop recommendation system that assists users in identifying suitable crops based on environmental and agricultural input data through a simple interactive interface.

EDUCATION

DECEMBER 2019

GRADE 12 CERTIFICATE, NABOYE SECONDARY SCHOOL

DECEMBER 2025

BACHELORS OF SOFTWARE ENGINEERING, ZAMBIA UNIVERTSITY COLLEGE OF TECHNOLOGY

Maintained strong academic performance with multiple distinctions, demonstrating solid theoretical and practical knowledge in software engineering.
